God jul!

God jul!

Oppsummering:

- Varierende kvalitet og satsning på lettlestbøker
- Veldig få jenter som hovedkarakterer i humorbøkene
- Derimot er de sterkt representert i tegneseriene ...
- ... som ofte er eksperimentelle, både i form og innhold
- En del romaner befinner seg i et grenseland mellom spenning, fantasy, science fiction, humor, drama og eventyr (med vellykket resultat)
- Utvalget i skrekk og spenning er stort, og finnes i både mildere og skumlere varianter
- Det er også flust av bøker om mer hverdagslige, men likevel relativt alvorlige utfordringer
- Flere nye julebøker, både «julefeelgood» og kalenderbøker
- Mange seriebøker for målgruppen
